15 Celebrating 15 Years of Excellence

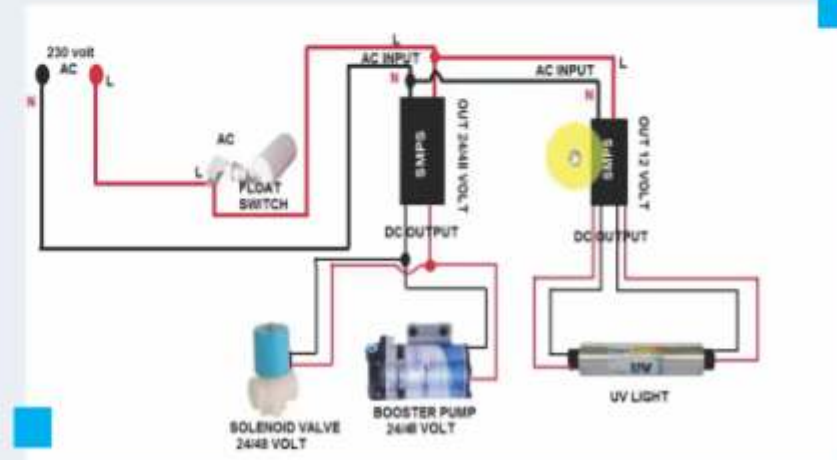

Imported, Export and Marketed by
GLOBAL WATER TECHNOLOGIE

Manufacturing & Assembling

Parts & Components are used in TOTAL CARE RO Plants & Systems are manufactured in house or few are imported from Japan, China & Korea.

We have deployed well trained and qualified staff to assemble our machines and systems.

Our Testing Center

Striving for sustainable operational excellence, TOTAL CARE invests in its facilities on an ongoing basis to ensure that we stay at the forefront of fastener manufacturing. Our Technical Center cum Research Facility is geared towards improving our understanding of fasteners and providing a better quality product to the customer. We have installed state of the art testing equipment like Torque testing, Fatigue testing and Vibration testing which are instrumental in keeping the quality of the product in line

Packaging and Logistics

We ship material to the customer on a daily, weekly and monthly basis depending upon the customer's requirement. We use approved logistic providers and freight forwarders to handle our shipments in India.

TOTAL CARE has different packing standards based on customer type and we cater to 2 different customer segments

Aftermarket

Materials are packed in TOTAL CARE labeled boxes and sent to distributors for the aftermarket in India.

Export customers

Materials are packed in corrugated boxes and dispatched on wooden Euro pallets to export customers. These pallets are fumigated, wrapped, labeled and strapped prior to dispatch
